Dear XXXXXXXXXXXX,

You have received our letter requesting special accommodation for our modified proposal for our North Park property. By this letter, we are seeking your re-consideration of our Special Review.

We realize you receive a vast amount of reading material before each council meeting, and that you may not have had time to study the memo from your City Attorneys and Planning staff regarding our Special Review.

We hope you will take this opportunity to study this memo now because we believe the basis for your denial is inaccurate and opens the City up to liability. This is not a threat on our part, rather it is meant as a means of avoiding further problems. We have also been working with Kelly Addy and Tina Volek to assure their ability to assist you in understanding the issues involved in this decision as well.

Thank you for your attention.

Sincerely,

David W. Cunningham, MHA, ACATA
Chief Executive Officer
Rimrock Foundation
