

### Family Week Guidelines

Welcome to our program! We ask that you observe the following guidelines while you are here for Family Week:

1. **In order to maintain the confidentiality for our patients, we ask that cell phones be left in vehicles.**
2. Please do not arrive earlier than 8:15am. Family Week programming begins promptly at 8:30am and concludes at 4:00pm each day. Lunch is on your own each day.
3. Parking is available only in the southeast parking lot off **North 27<sup>th</sup> Street** marked St. Vincent Patient and Visitor Lot. If an attendant inquires, tell them you are at Rimrock. We encourage you to car pool or, if you are staying at a nearby motel, to walk.
4. Family members who may have a disability or require special access may be dropped off right at our front entrance by a driver who should then park off-site in the St. Vincent lot, or a limited number of handicap parking spaces are available with an appropriate handicap sticker.

5. Visiting during Family Week is allowed on Wednesday and Thursday from 4:00pm to 5:00pm. Only family here for Family Week may visit at these times, and all visiting is to take place in the cafeteria or the lounge just outside the cafeteria. **Under no circumstances should visiting occur in patient rooms or any other areas.**
6. Do not bring outside food into the facility. You may bring unopened bottled water or it can be purchased on the 2<sup>nd</sup> floor.
7. We have restrictions on clothing for our patients and families – no insignias or logos advertising alcohol or other drugs. No shorts above the knee, tank tops or other revealing clothing.
8. **Cameras, purses, backpacks, satchels or briefcases are not allowed in the facility.**
9. You may get change in Room #109.
10. During Family Week, please refrain from using mood-altering substances. If we suspect you are under the influence of a mood-altering substance, you may be asked to take a breathalyzer and/or provide a urine drug test before participating in programming. Rimrock does not view marijuana as “medicinal” and this would be a substance we ask you not to use this week.
